

Mountain Trail Ride, Spain

Mountain Trail Ride

This short break trail ride runs from Saturday to Wednesday and include three full days riding through some of the most spectacular parts of the National and Natural Park of Sierra Nevada. During your holiday you will stay in the comfortable Casa la Sevillana located in the small village of Bubion. The village is quiet and charming and boasts some very nice little restaurants and small bars, perfect for a relaxing evening.

The diversity of bridle-paths and forest tracks allows us three days to explore many of the more inaccessible ravines and valleys of this mountainous region. From the high summer pastures and streams fed by the snow melt of the Mulhacen, down to the whitewashed villages in the valleys. The routes are so planned that we ride over totally different terrain each day. One day we follow small paths high into the mountains, with spectacular views on a clear day of the Mediterranean on one hand and the highest peaks on the other. On other days we take slightly lower routes where the many forest tracks allow for a faster pace.

Riding

As with all mountain trail rides you need to have a reasonable level of fitness and there are places you will need to lead your horse. It is necessary to be comfortable at all paces. You will be asked to specify your riding experience, weight and height when booking. The average riding time per day is 6 hours.

Meals

Dinner is included on the night of arrival, thereafter we are happy to recommend and make reservations for the local restaurants. On the days you ride we provide a full picnic using fresh local produce. Please let us know if you are vegetarian or have any special dietary requirements.
