

Unaccompanied Children's Riding Holiday

Typical Activities

On this horse riding holiday you will be staying in a large 18th century farmhouse with delicious home-cooked meals and friendly hosts. This activity break is great for during the school holidays and there is plenty of riding, helping with pony care and outdoor fun.

Initially, the children will learn how to handle the pony safely including tying-up and leading the pony. A typical day consists of feeding and grooming the horses and ponies, tacking up, and approximately 3 hours riding with experienced instruction and adult supervision. You will be enjoying stable management lessons and learning to care for all the needs of the horses and ponies. The riding will be a mixture of lessons, hacks and walkabouts through the beautiful woodland and along the farm tracks.

After riding you will be able to enjoy a wide range of activities including swimming, games, films, picnics, barbecues, ball games and walks, so the day and evening are as full as you want them to be. Some of the social activities will be split by age.

Children will ride in groups of ability but this holiday caters for complete beginners who will start on the lead-rein to more experienced riders. The children will be supervised at all times during the day and evening and there will always be someone in the farmhouse to care for them. Parental consent is required for swimming, or any off-site trip.

Prices

The cost of the itinerary includes full board and all riding.
